

GENERAL HUERTA IS PREPARING TO RESIGN

WILLING TO WITHDRAW ONCE MEXICO
IS "POLITICALLY PACIFIED"

Announces That "Neither Mistaken
Pride or Personal Interest" Will
Prevent His Resignation When the
Government Succeeding His is so
Constituted That It Can Count on
Support of Public Opinion.

NIAGARA FALLS, June 2.—General Huerta is preparing to resign. He today authorized his representatives at the mediation conference to announce to the world that "neither mistaken pride nor personal interest" would prevent his withdrawal when once Mexico is "politically pacified" and the government succeeding his is so constituted that it can count on the support of public opinion in Mexico.

The Mexican delegates in their formal statement revealed that they had been instructed from the first to inform the mediators that General Huerta's personality would not be an obstacle toward reaching a peaceful settlement. They also stated in unequivocal terms that the internal situation in Mexico was "necessarily bound up with the international questions" and that this spirit had actuated them in coming to the mediation conference. Coincident with the announcement by the Mexican delegates of their position the mediators tonight sent a note by mail to Rafael Zubaran, representative of General Carranza in Washington, replying to the communication brought here last Friday by Juan E. Urquidí. The mediators in effect asked General Carranza, through Mr. Zubaran, if the constitutionalists were now willing to discuss internal as well as international questions, now considering the fact that the mediators but by the Americans and Huerta delegates as well and if they were ready to declare an armistice with the Huerta forces so that the political pacification to which the Huerta delegates referred in their statement might be speedily brought about.

These acts—the issuance of the statement by the Mexicans and the mailing of a reply to Zubaran—broke the deadlock in the negotiations the existence of which was formally denied during the day by the mediators.

It was nevertheless authoritatively established that not until the mediators withdrew their original intention of ignoring the Zubaran note, did the American delegates consent to go ahead with a discussion of the general peace plan, on which substantial progress was made in today's conference. The statement by the Mexicans prepared two days ago, but not issued until General Huerta had telegraphed his complete approval today of the tentative plan for a new provisional government also carried the negotiations a long step forward and an atmosphere of optimism prevailed in the mediation colony tonight.

Statement Approved By Huerta.

The complete statement follows: "In accordance with the instructions which the Mexican delegation has had since the beginning of the peace negotiations its members declared at the first full conference; that is to say, in the presence of the mediation plenipotentiaries and of the delegates of the United States of America that President Huerta's personality is not an obstacle to the reaching of a satisfactory conclusion. General Huerta is prepared to withdraw from the government on condition that, at the time of his withdrawal, Mexico shall be politically pacified and the government succeeding his shall be such as to count on the acquiescence of the governed and on the support of public opinion, which constitute the real basis for peace and stability in any country. It has been President Huerta's wish to place on record that neither mistaken pride nor personal interest will prevent his withdrawal once the above named conditions are satisfied. "The Mexican government accepted the mediation of the South American powers in a frank and open spirit and the Mexican delegation has been guarded and will be guided in all its acts by perfect good faith. "It should be unnecessary to say that President Huerta gave the Mexican delegation special instructions not to consent to anything which would curtail the sovereignty of the Mexican nation and to refuse a hearing in the deliberation of the conference to anything which might be construed as an imposition from the outside. For their own part the delegates would not have accepted instructions of a different nature on these points, but they beg to state that hitherto they have had no occasion to refer to them, thanks to the exquisite tact of the mediation plenipotentiaries and to the circumspection of the American delegates. "To treat the interior pacification of Mexico in the course of deliberations on difficulties of an international character cannot be considered as submitting the sovereignty of a nation to an external influence; said pacification is necessarily bound up with international questions. This has been appreciated by the Mexican delegation and in setting forth the intentions of its government in the mediation and in its endeavors to bring about the pacification it has been inspired by the knowledge that without it no satisfactory conclusion can be arrived at in the international question."

Follows Long Conference.

CHICAGO BRICK MAKERS GRANTED WAGE INCREASE

Three Months' Strike, Which Has
Tied Up Building Operations, Is
Ended By Signed Agreement.

Chicago, June 2.—The strike of the brick makers which has tied up building operations in Chicago and kept 150,000 men idle for three months, was ended tonight. Officials representing the brick manufacturers and makers signed an agreement granting the men one cent an hour wage increase for those receiving less than forty cents an hour. The manufacturers will have full control of hiring and discharging workmen. The agreement is practically the same one submitted by the employers three weeks ago and rejected by the brick makers.

Although there were only a few more than 2,000 brick makers out, inability to obtain material stopped building operations all through the city.

OPERATORS URGE INVESTIGATION

Kanawha Coal Operators Urge Early
Investigation of Conditions on
President Wilson.

Charleston, W. Va., June 2.—An early investigation of conditions in the Kanawha coal field of West Virginia, where 8,000 men are now on strike, was urged on President Wilson by telegraph tonight by the Kanawha coal operators' association. Similar telegrams were sent to Attorney General McReynolds, Secretary of Labor W. B. Wilson, and Congressmen. The operators expressed fear that unless some action is taken, trouble may ensue.

When sub-committees appointed by both operators and miners failed to reach an agreement last week officers of District No. 17, United Mine Workers of America, ordered approximately 12,000 men in the Kanawha Valley to lay down their tools. The order went into effect yesterday but before the first day of the strike was over several operators reached agreements with the miners and about one-third of the men have returned to work.

BOTH SIDES PRESENT SAME DEMANDS

Coal Miners and Operators of Ohio
Present Same Wage Demands
As at April Conference.

Columbus, O., June 2.—Both coal miners and coal operators of Ohio presented the same wage demands at the opening of their joint conference here today as those proposed and refused by both factions at the first conference held in April. Operators today voted unanimously against granting most of the demands of the miners.

A vote on the operators' proposals was deferred by the miners until tomorrow. Miners' officials said their delegates will refuse to sign a contract on the basis urged by the operators and the wage question will go to a joint conference committee probably tomorrow.

DIRECTORS READY TO TESTIFY

Inter-State Commerce Commission
Resumes Its New Haven Investigation Today.

Washington, June 2.—When the inter-state commerce commission resumes its investigation into the affairs of the New York, New Haven & Hartford railroad tomorrow morning three directors of the road, Wm. Skinner, Henry K. Meltzer, J. S. Elton and a former member of the board, Lawrence Minot, will be ready to testify.

All four of the witnesses will be questioned regarding financial transactions of the New Haven concerning which Mr. Mellen testified. There were persistent reports today that William Rockefeller would be called in the near future, despite the affidavit by the aged financier's physician that he is not in a condition to be subjected to examination.

PROVISIONS AGAINST PRICE DISCRIMINATION

PROVISIONS CONTAINED IN CLAY-
TON BILL AS FINALLY AGREED ON

The Measure as Fixed By House Also
Limits the Use of the Injunction
in Labor Disputes; Legalizes
Strikes, Primary Boycotts, and
Peaceful Picketing.—Other Wash-
ington News.

TUESDAY IN CONGRESS.

Senate.

Met at 11 a. m.
Debate was resumed on the repeal of the Panama tolls exemption.

Railroad officials appeared before the inter-state commerce committee.

Senator Perkins speech against the repeal of the Panama tolls was read by a clerk.

Senator Cummins brought up his bill to regulate liability of railroads for freight but it went over without action.

Passed naval appropriation bill carrying about \$140,000,000.

Adjourned at 6:12 p. m., to 11 a. m., Wednesday.

House.

Met at noon.
Leaders expected to take up the railroad securities bill tomorrow and dispose of all three trust bills by Saturday.

Adopted the anti-injunction section of the trust bill after sensational speeches.

Inter-state commerce committee favorably reported bills to authorize construction of bridges across the Mississippi at New Orleans and across the St. John's river at Fort Kent, Maine.

Passed Clayton anti-trust bill in committee of the whole and laid it aside for final action later.

Began consideration of Rayburn bill to place issue of railroad securities under the control of the inter-state commerce commission.

Recessed 4:45 p. m., to 8 p. m. Resumed general debate on railroad securities bill.

Adjourned at 11 p. m., until noon Wednesday.

WASHINGTON, June 2.—As finally agreed upon by the house today, the Clayton bill contains provisions:

aimed against price discrimination; prohibiting arbitrary refusal to sell natural mineral products; forbidding sale or lease of goods conditioned upon the agreement of purchase or lessee not to deal in competing products; making decrees in suits brought by the United States under the anti-trust laws conclusive evidence in private suits against the defendant, prohibiting corporations from controlling competing concerns by stock ownership and forbidding interlocking directorates in concerns under federal jurisdiction. The bill provides that nothing in the anti-trust laws shall be construed to forbid the existence and operation of farmers and labor unions and that such organizations and their members shall not be construed or held to be combinations or conspiracies in restraint of trade.

The measure also limits the use of the injunction in labor disputes; legalizes strikes, primary boycotts, peaceful picketing and the peaceful assembly of strikers and provides for trial by jury in cases of contempt of court committed outside of the presence of court or not near enough to interfere with the administration of justice. The penalty section would impose a fine of \$5,000 upon corporations convicted of violating the law and a similar fine or imprisonment for one year as a penalty for directors, officers, agents or employees, who authorize, direct or do acts which result in violations of the law by the corporation.

The agreement on this measure leaves only the Rayburn railway security bill to be acted upon to complete the administration programme.

Pass Naval Appropriation Bill.

The senate late today passed the annual naval appropriation bill carrying about \$141,000,000 providing for the administration two battleship construction programme and authorizing in addition the building of a third modern dreadnought with money to be derived from the sale of the battleships Idaho and Mississippi. The measure now goes to conference between the two houses. At the last moment an amendment was added to create a special committee to report on the location and cost of a government armor plate factory.

A similar provision in the measure as it passed the house had been eliminated by the senate committee.

TWO CRUSHED AS AUTO OVERTURNS

Automobile Overtakes and Rolls Into
Ditch Killing Two and Injuring
Five Others.

St. Paul, June 2.—Two men were crushed to death and four women and one man narrowly escaped a similar fate three miles from Farmington today when their automobile overturned and rolled into the ditch. Three men were hurt and the surviving man of the party suffered a broken leg. The dead are: N. E. Nelson, business man of Duluth; A. A. Cornell of Northfield.

RETURNS FROM IOWA PRIMARY COME IN SLOWLY

Maurice Connolly Leads in Race for
Democratic Nomination for U. S.
Senator While Cummins Leads
For Republican Senatorial Nomination.

Des Moines, June 2.—Returns from one fourth of the voting precincts in Iowa scattered in sixty-six counties tended to cut down the majority of Congressman Maurice Connolly over E. T. Meredith for the Democratic nomination for United States senator. The lead of Senator Albert B. Cummins over A. C. Savage for the Republican senatorial nomination was also lowered while that of Governor George W. Clarke over his two opponents for the Republican gubernatorial nomination was increased.

The contest between Casper Schenk and S. H. Bashor for the Progressive party nomination for United States senator remained close with probably not more than 3,000 or 4,000 either way.

James T. Hamilton was believed certain to be the Democratic nominee for governor, although no estimate was available because of the light Democratic vote.

Florida Returns Incomplete.
Jacksonville, Fla., June 2.—Incomplete returns from virtually every county in today's state-wide primary, the returns indicated that Senator Duncan U. Fletcher, candidate for renomination was leading his opponent John N. C. Stockton.

Representative Stephen M. Sharkman, chairman of the house rivers and harbors committee is believed to have been renominated.

SPIRIT OF HOPE ENTERS PRISON

Law Which Permits Prisoners to
Earn Freedom By Work on
Roads Is Great Success.

Joliet, Ill., June 2.—The spirit of hope has entered the penitentiary here with the success of the law which permits prisoners to earn their freedom by good work and behavior in building public roads, according to Warden Allen.

The men placed at work are under no restraint except their words of honor not to escape.

Eighteen convict road laborers have been pardoned by Governor Dunne in the last fifteen months.

"Honor work" on roads earned commutations of sentences by Governor Dunne for the following convicts today:

Clayton, convicted at Kankakee in 1911 of a confidence game; A. C. Kemplin, convicted in McLean county in 1913 of manslaughter; David Miller, sentenced from Iroquois county 1912 for burglary; William Wingo convicted in Schuyler county, 1908 of burglary.

THAW CASE TO SUPREME COURT

As Soon as Case is Docketed, An
Application Will Be Made for
Thaw's Release on Bail.

Washington, June 2.—Harry K. Thaw's fight against being returned to prison at Matteawan reached the supreme court today on an appeal from the decision of Judge Aldrich of the federal district court for New Hampshire against Thaw's extradition on the demand of New York state officials. As soon as the case is formally docketed, probably this week, it is believed an application will be made for Thaw's release on bail while his case is pending before the supreme court. Judge Aldrich refused to allow Thaw's release, although he stated that probably under the rules of the supreme court Thaw was entitled to immediate release on the refusal of the court to allow his extradition.

HINDU IMMIGRANTS TO RETURN

Canadian Authorities Did Not For-
bid the Hindus to Land But
Adopted Policy of Delay.

Vancouver, B. C., June 2.—Gurdit Singh, the rich Hindu leader and his 375 countrymen who sailed across the Pacific to knock at the door of Canada as British subjects are about to sail back to Asia on the Komagata Maru which brought him here. The Canadian immigration authorities did not actually forbid the Hindus to land but adopted a policy of delay, under which the examination of the prospective immigrants would have lasted two or more years.

WISCONSIN SOCIETY NEEDS WOMEN

Peoria Man Asserts Women Are
Needed in German Roman Catho-
lic Church Union of Wis.

Sheboygan, Wis., June 2.—Peter J. Bourscheidt of Peoria, Ill., told the ladies auxiliary branch of the German Roman Catholic Union of Wisconsin before its permanent organization today that men could not do without the women, and that it seemed almost imperative that they be enlisted in the society.

"It is probable," declared Mr. Bourscheidt, "that the Central Verein will pass upon the proposition at the next convention at Pittsburgh. Wisconsin will be the first state to form a woman's auxiliary."

SOLDIERS ARE SENTENCED.

Honolulu, June 2.—Twelve soldiers of the twenty fifth infantry (colored) were sentenced today for ten years imprisonment in the military prison at Fort Leavenworth, Kans. They were court-martialed and found guilty of conspiring to run amuck in Honolulu among civilians and white soldiers.

PLACES DYNAMITE IN GOVERNMENT BUILDING

EXPLOSIVE FOUND UNDER OFFICE OF
SECRETARY HOUSTON

Watchman, Who Found the Dynamite
Is Declared to Have Confessed
That He Had Placed the Sticks,
Hoping That He Would Win Prom-
otion by Discovering It.

WASHINGTON, June 2.—The finding of five sticks of dynamite with burning fuses attached late today under the office of Secretary Houston of the department of agriculture led to the arrest of Daniel J. Jauch, the watchman who found the explosive.

Later at police headquarters it was declared that Jauch confessed that he had placed the dynamite, hoping that by discovering it he would win promotion.

Jauch, who formerly was a private in the army is said to have been under treatment for nervous trouble at the National Soldiers Home hospital.

The first warning was given the clerks and government officials in the building by the watchman who rushed through the corridors shouting that the massive structure was about to be destroyed by dynamite.

Hundreds fled to safety while several ran to the basement where they found the sticks of dynamite on which the fuses had burned out. Apparently an explosion had been averted only because the fuses had been jammed so tightly into the detonation caps that the fire was extinguished.

The dynamite had been placed directly beneath the office of Secretary Houston. The secretary was out of town but immediately across the corridor from his office assistant Secretary Galloway and several other officials were working. That part of the building would have been destroyed had not the sizzling fuses burned out.

ESCAPED LEPER IN WASHINGTON

Man Who Escaped From Pacific
Coast Station May 18th, Stops
at Washington Hostelry.

Washington, June 2.—John R. Early, who for five years had been held under quarantine while medical experts have disagreed on whether he is a leper, turned up in Washington again today. Before his identity was discovered he had taken quarters at a big fashionable uptown hotel, the home of Vice-president Marshall and other prominent in capital life.

Early was not discovered until he telephoned to a newspaper asking for a reporter to interview "Mr. Westwood." The newspaperman at once recognized the patient and informed the authorities who took early to his old time place of isolation in the city limits.

The supposed leper escaped May 18th from the Diamond Head Quarantine Station near Port Townsend, Washington.

BOYLE DEMANDS RULING FROM THREE-EYE HEAD

President of Danville Club Wants
Word From League Executive Be-
fore Going to Springfield.

Danville, Ill., June 2.—"Unless I get a ruling from President Kearney on the question of living up to the constitution of the Three Eye League on the salary limit question before train time tomorrow morning I will not take the Danville team to Springfield," declared President Boyle, of the local organization. He displayed a telegram from Kearney in which the president of the league stated "I have taken the matter up with Deatur. You can use your own judgment about going to Springfield."

President Boyle informed Kearney of the admission of the Deatur management that they were over the limit, and that other managers were guilty of violating the salary limit rule.

"It is a business proposition," declared Boyle. "What's the use of having any rules unless we live up to them? Kearney has got to show me that he is doing something besides drawing a salary as president and there are several other Three Eye club presidents who are with me on this proposition."

Kearney is investigating.

Chicago, June 2.—President Kearney said tonight he was investigating reports that the Deatur club had exceeded the salary limit.

"I expect to have a revised list of salaries paid by the Deatur club tomorrow morning," he said. "I'm inclined to doubt that the club has violated the rule governing salaries. If it has I'll find it out. President Boyle of the Danville club knows what penalties he will subject his club to if he does not take his club to Springfield tomorrow. Two wrongs do not make a right and I had this in mind when I told him to use his own judgment about playing according to schedule."

Declare They Are Under Limit.

Officials tonight stated that they are under the salary and player limit of the Three Eye League and have their books open for inspection.

President Kearney today notified the Deatur officials that Danville had protested the games played between the two teams this season.

COLLEGE MEN SUPERSEDED BY HIGH SCHOOL GRADUATES

Geo. P. Bashford of Mt. Vernon
School of Industrial Arts Testifies
Before Commission Industrial
Relations.

New York, June 2.—The inadaptability of college men to the demands of some highly specialized industries has led to their being superseded as employees by high school graduates according to George P. Bashford of the Mount Vernon school of industrial arts in testifying today before the federal commission investigating industrial relations to obtain data for remedial legislation. Mr. Bashford who has been connected with large railroad and locomotive corporations said that corporation schools are much more efficient in giving industrial education than public schools.

"When a boy once makes up his mind on the trade he wants to enter," he said, "he can learn more in that trade, amid commercial surroundings than he can at school."

One large corporation which had ceased employing college men and now takes boys graduating from high schools, trains them for its service in a highly specialized school of its own he said.

The idea of corporation schools was born in the plants of a large electrical company, Arthur Williams, president of the national association of these schools, told the commission the company was paid handsomely, in an indirect way, by the work of those schools.

A new teaching profession in industry had arisen, the witness said. Technical education would diminish the social unrest caused, he thought, by the giving up of the old time continuation schools. Continuation classes at department stores in New York and Brooklyn teaching English, arithmetic and geography which were eagerly attended by employees and led to their advancement in position and increased wages, was another reported manifestation of the hunger for knowledge among workmen and women.

While arrangements were being completed tonight for the funerals, the inquiry was proceeding with a view of fixing the responsibility for the Empress collision with the Norwegian Collier Storstad.

The third member of the Royal Commission, the official investigating body will be Lord Mersey of England, who presided over the British government's inquiry into the loss of the Steamship Titanic. The other two members are Ezekiel MacLeod, chief judge of the admiralty of the province of New Brunswick and Justice Sir Adolph Routhier, judge of the court of admiralty of Quebec. George Vaux, of the legal staff of the British board of trade will sit as an advisory member.

KEEPS CONSISTENTLY IN CATTLE FEEDING BUSINESS

Charles Wood Has Shown Good Results With Methods He Uses With Cattle and Hogs—Has Large Number of Animals Now Fattening for Market.

One of the men who continue to feed cattle is Charles Wood residing a few miles northeast of Pisgah, where he manages several hundred acres of land. Among recent improvements is an ice house devised by him and which seems to be a complete success. It is four feet below the ground and six above with roof and gables of common lumber. The walls are of concrete four inches thick built about a common No. 9 wire fence. The building is about 12x14 and inside is a wood partition four inches from the concrete, the space lined with chaff and broken straw. His ice was not of the best and only five inches thick. He packed it with sawdust and crushed straw and so far it is a perfect success, even the snow not being melted as they remove the ice.

In the barn on the place are timbers hewn by Iven Wood, father of the occupant, when the former was a young man and there is a bit of fence with rails split by Iven Wood and Milton Davenport when they were young men.

For feeding cattle Mr. Wood grinds his corn, cob and all, in a regular mill for that purpose. He has a vat of galvanized iron holding fifty or more bushels. Into one side project some three inch iron pipes, the ends covered with screen and extending back in coils in a furnace. He puts in thirty bushels of water and heats it to boiling point and then adds ten bushels ground corn and cob and lets it boil six hours when he has about fifty bushels of feed with a lot of about 50 gallons of slop or corn syrup in addition. He is feeding 43 cattle to which he gives 25 bushels of this feed from the cooker twice a day, the equivalent of ten bushels of corn, and for roughness about ten pounds of clover hay to a steer.

To the corn syrup he adds a bushel and a half of bran and oats and that feeds eighty shoats on grass. He has with his cattle 22 hogs which he gives two handfuls of shock corn a day and they are as fat as can be. His cattle he bought a trifle less than two months ago in St. Louis. They are ordinary grade Short Horn and whiteface steers and from their looks a hundred pounds gain a month is a low estimate. They are fed in a dry lot and are perfectly healthy and fat as butter.

Mr. Wood moves his feed lot from place to place to act as a fertilizer. The quality of the feed makes up for lack of grass and the cattle are doing as well as cattle could do.

His feed furnace he runs mostly with cobs and has a preparation of charcoal, cob ashes, salt and the like and gives to his hogs in self feeders and has no cholera on his place when his neighbors' swine are dying with it.

To feed 43 cattle, 22 hogs and eighty shoats on ten bushels of corn and a bushel and half of bran and oats aside from the roughness in grass and hay, Mr. Wood thinks is doing pretty well.

FUNERAL OF ROY F. DAVIS.
The funeral services of the late Roy F. Davis were conducted at his home at 1001 Oak street, Beards-town, Ill., May 28th. Elder A. M. Baker of the Reorganized Church of Jesus Christ of the Latter Day Saints had charge, assisted by Elder M. R. Shoemaker and B. L. Fulk. Almost the entire force from the C. B. & Q. car shops were in attendance, the deceased being employed in capacity of clerk in that department. He commanded the respect and friendship of all those with whom he was associated. The floral decorations from various friends and societies were beautiful. The funeral sermon by Elder Baker was very instructive as well as soul inspiring, and consoling to the bereaved. The wisdom of the All Wise Father is beyond our understanding, therefore we do not know why our friend has been taken from among us, but we may rest assured that the Great God of Heaven does all things well. Friend.

Harry J. Lohman of Ashland has awarded the contract for a \$5,000 house, the architect's work for which will be done by J. K. C. Pier-son, William C. McCullough of this city was among those who submitted bids. The actual construction work will amount to \$4,000, or \$94 lower than Mr. McCullough's bid. Mr. Lohman is in the mercantile business in Ashland.

ERECT NEW POLE FOR WIRELESS STATION.

Force of Men Put Up Fifty Foot Standard Tuesday Evening—Will Get Time From Arlington.

Tuesday evening, a force of men erected a new fifty foot pole on the west end of the Ayers National bank building for use for the wireless station of the Central Illinois Radio Club. The pole is fifty feet high, and the bottom 28 feet is 7 inches square with a 3/4 inch hole, which the top section fills. The pole is held in place with twelve guy wires, which are tightened with turn-buckles.

The pole is arranged to carry an extra rope, with which a signal light will be hoisted and it is the plan to flash time given out at Arlington Station, W. Va., every night at 9 o'clock. This time is given out at Arlington every night at 10 o'clock, which would be 9 o'clock here, and they start sending at 9:55 p. m., central time. A dot is sent every second for the first 55 seconds after which a 5 second rest is taken and this is repeated until 10 seconds before 10 o'clock, when a ten second rest is taken and a 10 o'clock dot is sent giving the time. The signal light can be seen at nearly every place in town.

Those who assisted in raising the pole Tuesday were: T. C. McKivickers, Albert Atherton, Mark Robinson, L. E. Wackerle, C. C. Hart, Edward Flynn, E. A. Decker, Howard Anders, William Lentz, E. F. Miley, W. E. Deutcher and A. D. Deutcher.

CONFERENCE ON WOOL INDUSTRY

Washington, D. C., June 2.—Improvement in wool handling and sheep husbandry is the aim of a three-day conference which was opened at the Department of Agriculture today. Many persons interested in the sheep and wool industry appeared at the conference in response to the invitation issued by Secretary of Agriculture Houston. The subjects scheduled for discussion included the manufacturing value of American wools, the possible adoption of foreign methods to American conditions, the improvement of farm and ranch methods of handling wool, the standardization of the wool clip, and the prevention of damage by dogs and predatory animals.

WILL MOVE TO DENVER.

Norman, who is in the Woodmen Sanatorium. Mrs. Annie J. Still has arrived in the city from Eureka Springs, Ark. She has been assisting the Henderson family in packing their household goods. Mrs. Still will accompany Mr. and Mrs. Henderson as far as Eldon, Mo. After a visit there she will go to Eureka Springs for four months and then to Colorado Springs.

SANTA CLARA HOLDS CHERRY FETE

Santa Clara, Cal., June 2.—Other crops may wither and fall, but the luscious cherry continues to hold its kingly sway in this section of California. It had its day of glory here today, when hundreds of persons gathered for the opening of the second annual California Cherry Carnival. The carnival will continue until the end of the week. In addition to the extensive exhibition of fruit and flowers the programme provides for elaborate entertainment and pageantry. Cities and towns throughout this section of the state are taking part in the carnival.

POPE PIUS HAS A BIRTHDAY.
Rome, June 2.—Addresses and telegrams from all parts of the world were received at the Vatican today congratulating Pope Pius on his seventy-ninth birthday anniversary. There was no celebration of the anniversary, but during the day the Pope received visits from a number of cardinals and many of the foreign prelates who came to Rome for the consistory. This morning His Holiness said mass in the presence of a few specially invited of the faithful.

SEVEN JURORS CHOSEN

IN THE NUNES CASE

Both Special and Regular Panels Are Exhausted and Another Special Panel of Fifty Men is Called for Examination This Morning.

Although the Morgan county circuit court convened at nine o'clock Tuesday morning with a part of the regular panel and a special panel of fifty men waiting to be examined, the last prospective juror was examined at four o'clock and only seven jurors were in the box. The attention of the court since four o'clock Monday afternoon has been occupied by the case of the People vs. Frank Nunes, Mary Nunes and Jacob DeOnellias, charged with the murder of Antonio Nunes.

A majority of those examined in this case were challenged by the prosecution and excused by the court because they expressed scruples against inflicting the death sentence in the case should the evidence warrant. The remainder of those excused by the court either had a fixed opinion as to the guilt or innocence of the defendant or were ineligible because of age or profession. J. A. Conlee was excused when he was called and said he was a minister of the gospel.

Those who remained in the jury box when court adjourned were: H. W. Dinwiddie, farmer, who resides west of Arcadia; L. R. Watson, farmer, of Woodson; W. W. Robertson, farmer, Prentice; John R. Allan, farmer, of near Lynnville; Samuel Angelo, farmer, of Lynnville; L. C. Myer, farmer, of Concord; and J. F. Eckhoff, retired merchant, of Jacksonville.

Many Venue-men Examined.

The fifty jurors regularly called for the third and fourth weeks of this term of the circuit court are as follows:

James Magner, Jacksonville, No. 5; John Day, Jacksonville, No. 1; W. W. Robertson, Prentice; James Galloway, Woodson; Owen Buckley, Chapin; John Ehler, Jr., Jacksonville, No. 7; Lloyd Reid, Jacksonville, No. 5; L. R. Watson, Woodson; Louis Perbix, Markham; E. G. Saye, Jacksonville, No. 10; Anton Graef, Jacksonville, No. 8; W. H. Stice, Jacksonville, No. 11; J. W. Mann, Jacksonville, No. 9; Samuel Darby, Pisgah; H. Bancroft, Jacksonville, No. 8; Charles Hart, Franklin, No. 1; Frank Tracey, Alexander; D. Turley, Arcadia; Herman Ellis, Jacksonville, No. 4; Amos May, Jacksonville, No. 2; Sam Wilcox, Alexander; N. Z. Reinback, Franklin, No. 2; John Gofnett, Concord; Bernard Gause, Jacksonville, No. 4; G. W. Bender, Alexander; John Ommen, Concord; John Bauman, Jacksonville, No. 5; Wm. Hulscher, Jr., Mercedosia; C. W. Martin, Jacksonville, No. 6; H. W. Dinwiddie, Arcadia; Frank J. Vieira, Jacksonville, No. 5; N. G. Kepling, Waverly, No. 1; Terah Massey, Jacksonville, No. 8; Chas. Elliott, Jacksonville, No. 9; Frank Taggart, Mercedosia; John Bland, Jacksonville, No. 11.

This panel, a part of whom were examined yesterday in the Nunes case, was soon exhausted and the men summoned by the court on the special panel were then called. The special panel was composed of the following:

D. T. Summers, C. C. Schureman, H. Capps, J. W. Lazenby, Sam S. Angelo, J. R. Baxter, C. E. Cox, R. W. Dodsworth, J. A. Conlee, Walter Roulard, Lloyd Cox, Fred Seiger, Fred Mulch, Payton Henry, John Taylor, Tom Conlon, W. H. Rohrer, J. F. Kitner, Wm. E. Reynolds, E. A. Jenkinson, L. C. Meyer, George Brown, J. W. Jackson, O. H. Coultas, Harris Cully, J. L. Graham, Allison Thomason, W. H. Anderson, Jos. Sheehan, A. Mc Namara, J. R. Allan, Philip Grant, Henry DeCastro, James Riley, Harry Olinger, Wm. Gofnett, Ezra Mills, H. K. Snyder, Oral Rexroat, Clyde Ranning, Dennis Maher, John Taylor, Frank Kiloran, John M. Carroll, George England, Thomas Allen, C. D. Ransdall, J. F. Eckhoff, Wm. G. Benson, G. B. Goldsmith.

When the last man had been examined the court was forced to adjourn until nine o'clock this morning when another special panel of fifty will be ready and will be examined.

85c Shower-Proof Foulards Reduced This Week to 69c

These are exceptional days at Harmon's Dry Goods Store. Each week we give values of the most unusual sort—and in this present instance we offer a buying inducement of which the knowing ones will not be slow to take advantage. Of all the clothes in a woman's wardrobe, there can be none more stylish and all in all as satisfactory, as dresses of "Shower-Proof" Foulard. It wears beautifully, does not spot readily and is easily cleaned. It is adaptable to all dress purposes—home wear, calling, street and evening wear. Fashion's requirement is for the slender silhouette—which demands the clinging silk. Shower-Proof Foulards seem to have been fashioned especially to meet this demand. They yield most splendidly to the draping effects now so popular. The colors and designs in which we are showing these silks are represented in a pleasing profusion of all the wanted shades and ornamentations. Comes 24 inches wide. Buy a dress pattern of "Shower-Proof" Foulard at this specially reduced price and have it made up by a

Among the guests were: Mrs. James Strawn of this city, a former member, and Mrs. Clifford Arnold of Oklahoma. Two papers were presented, one on "Bismark, the German Statesman" by Mrs. Richardson and the other, "Music, Schumann and Beethoven," by Mrs. Moeller. Reports of the Federation meeting were given by Mrs. W. H. Hinrichsen and Mrs. William Arnold and the roll call was answered to with quotation on music. After the meeting a social time was enjoyed when refreshments were served.

State Convention Promises to Attract Many Visitors.—Quincy Wants Next Year's Meet.

At the meeting this evening of the Jacksonville Aerie No. 509, National Order of Eagles, arrangements will be made for attending the state convention which is to meet in Moline June 9-11. Delegates Geo. W. Davis and Harry Herring with Chaplain Frank Correa will leave the first of the week. Word comes from Moline that every preparation is being made to welcome and entertain the delegates and their wives, the ladies of Moline joining in the message and using their best efforts. The convention promises to be one of the largest held in the state and the parade Wednesday night one of the largest also.

The Jacksonville delegation expect to meet the Springfield and Peoria delegations at Peoria and proceed together to Moline. Moline has one of the largest aeries in the state with over 800 members and a home valued at \$40,000. It is understood that Bloomington and Quincy will each strive for the convention next year but Quincy will likely get it as the aerie there is building a \$35,000 home and will be in good shape to entertain the convention.

We Keep Your Suit New!

The man who does not have his clothes dry cleaned and pressed frequently,—does not get the full wear out of them.

Long before the clothes are worn out the lapels droop over, the coat front breaks, the sleeves wrinkle and pull out at the elbow, the trousers become baggy and lose their shape at the bottom, and the entire suit looks old and disreputable.

Our service keeps them clean and fresh, keeps them shaped right and fitting perfectly until they wear out. It's not only an aid to good dressing—but a real economy, as well.

How I Produced 12 Pounds of Beef From One Bushel of Corn.

I bought 44 cattle through Milton Marshall & Co., St. Louis, of Henry Wright, they averaged 961 pounds, March 19, 1914 in St. Louis. I put them in dry lots March 27th, fed them all they would clean up in 30 minutes, crushed corn, cob and all then cooked in the 50 bushel size Wood's Grain Softener.

I put them on grass May 25th, they averaged 1200 lbs. when put on grass. While in dry lot I gave each steer 5 lbs. clover hay. After they ate their grain, I kept oat straw before them all the time, but they would not eat over one bale of straw per day. I fed at 6 a. m. and 6 p. m., at regular hours.

I measured the grain fed with a No. 8 scoop, feeding 50 scoops at each feed or 100 scoops per day, all they would clean up. I put in 20 bushels ground cob corn and all into a 50 bushel vat. This will fill it making 50 bushels feed, which makes 4 feeds, all they will clean up. I drew 50 gallons of syrup off and added 50 gallons of water, then added 1 1-2 bushels of ground oats and shorts, with which I am feeding 80 pigs that are doing well.

I will feed the cattle about 30 days longer and would be glad to have any one interested come and see them.

MOTHER OF SCHOOL GIRL

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Daughter's Health.

Plover, Iowa.—"From a small child my 13 year old daughter had female weakness. I spoke to three doctors about it and they did not help her any. Lydia E. Pinkham's Vegetable Compound had been of great benefit to me, so I decided to have her give it a trial. She has taken five bottles of the Vegetable Compound according to directions on the bottle and she is cured of this trouble. She was all run down when she started taking the Compound and her periods did not come right. She was so poorly and weak that I often had to help her dress herself, but now she is regular and is growing strong and healthy."—Mrs. MARTIN HELVIG, Plover, Iowa.

Hundreds of such letters expressing gratitude for the good Lydia E. Pinkham's Vegetable Compound has accomplished are constantly being received, proving the reliability of this grand old remedy.

If you are ill do not drag along and continue to suffer day in and day out but at once take Lydia E. Pinkham's Vegetable Compound, a woman's remedy for woman's ills.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Planning for the Stork's Arrival

Among those things which all women should know of, and many of them do, is a splendid external application sold in most drug stores under the name of "Mother's Friend." It is a penetrating liquid and many a mother tells how it so wonderfully aided them through the period of expectancy. Its chief purpose is to render the tendons, ligaments and muscles so pliant that nature's expansion may be accomplished without the intense strain so often characteristic of the period of expectancy.

"Mother's Friend" may therefore be considered as indirectly having a splendid influence upon the early disposition of the future generation.

Whatever induces to the ease and comfort of the mother should unquestionably leave its impress upon the nervous system of the baby.

At any rate "It" is reasonable to believe that since "Mother's Friend" has been a companion to motherhood for more than half a century it must be a remedy that women have learned the great value of.

No more timely advice could be given to the inexperienced mother than to suggest the daily use of "Mother's Friend" during the interval of expectancy.

Ask at any drug store for "Mother's Friend," a penetrating, external liquid of great help and value. And write to Bradfield Regulator Co., 502 Lamar Bldg., Atlanta, Ga., for their book of useful and timely information.

The effect of this splendid external application is an expression of the thousands of women who have successfully used it and recommended it through two generations.

Good-bye sore feet, burning feet, swollen feet, sweaty feet, smelling feet, tired feet.

Good-bye corns, callouses, bunions and raw spots. No more shoe tightness, no more limping with pain or drawing up your face in agony. "TIZ" is magical, acts right off. "TIZ" draws out all the poisonous exudations which puff up the feet. Use "TIZ" and wear smaller shoes. Use "TIZ" and forget your foot misery. Ah! how comfortable your feet feel.

Get a 25 cent box of "TIZ" now at any drugstore or department store. Don't suffer. Have good feet, glad feet, feet that never swell, never hurt, never get tired. A year's foot comfort guaranteed or money refunded.

COMMENCEMENT DAY AT THE WOMAN'S COLLEGE

SPLendid ADDRESS DELIVERED BY DR. NATHANIEL BUTLER.

Diplomas Awarded to Large Class of Graduates.—Annual Report of Dr. Harker Indicates Great Progress of College Through the Year.

The 68th year of the Woman's College has come to a close with every reason for gratitude on the part of the friends of that grand institution. The exercises were held in the spacious music hall, which was handsomely decorated for the occasion with house plants, ferns and other adornments and presented a fine appearance. The large audience filled nearly every seat and conspicuous in places of honor were graduates of the classes of 1853-4 and 5, while on the platform sat prominent friends of the institution.

It was a proud day for President Harker and he has just cause for great satisfaction and pleasure in the progress and welfare of the institution for looking on he may say with Aeneas of old "Quorum magna pars fui". Of which things I was a great part. He certainly has accomplished great things and is to be commended for what he has done.

After an organ voluntary prayer was offered by Rev. A. T. Carroll, official visitor appointed by the southern conference. After an organ, violin and piano trio by M. L. and D. M. Swarthout and Miss M. W. Shastid, Dr. Harker read and the students and many of the audience joined in repeating the 23d and 21st psalms and a part of the 14th chapter of John.

Mrs. Helen Brown Read was then introduced and sang with her usual great ability "Ave Maria", by Bruch, and was warmly applauded. With complimentary remarks Dr. Harker then introduced Dr. Nathaniel Butler of the university of Chicago, as the chief speaker of the occasion. Of the gentleman's fine address a short outline only is given.

"I am delighted to be here today for while I have not visited Jacksonville very frequently I have a warm interest in this institution. Its prosperity and growth have been wonderful; it is progressive yet safe and conservative.

"In Hyde Park where I live is a little six year old who has a pet cat and the little miss didn't think the cat paid the attention it should to its flock of kittens and the child was overheard saying 'Kitty, you ought to be ashamed of yourself. You are not fit to be a mother and hardly fit to be a father.'

"There are many places in life for qualified graduate women and I am glad to address an institution which prepares women for the duties of life. A girl wired home to her parents when she received her diploma, 'educated' and so well look on girls who have finished a college course but they are only prepared to be educated. Education is not simply finishing a college course but it is a constant enrichment of life every day. Today education is too much vocational and economic. Education enables one to take an intelligent outlook on life and broader view of things. No matter what a calling a man may have,

"A man is always occupied in his waking moments in one of three things; his vocation, social and civic relations or leisure. It is the educated person who knows how to make good use of time both at work or play and in helping others.

"There comes a time in life when decisions must be made and we must take our part in the great whole. Even in athletics the genuine participant may shut himself entirely from view for the sake of his side. The grand stand player who is seeking individual glory is hardly now to be seen. We need the ability, well trained minds to master the problems of life, to cooperate in social aims and purposes; all may be summed up in the word culture, but that means far more than mere intellectual attainments; it means a mind and body prepared for duty to God and mankind. We need a discriminating love for finer things, music, art, religion. The educated person without moral aims and religious beliefs is worse for his learning. Our brotherly efforts should not stop with our own family, vicinity, state or nation but should go out to China and all those who need the gospel of Christ.

"Young men all probably have a definite vocation in mind; one to which they may bend their energies, but with young women it not exactly the case but let me say there is no vocation more noble than that of the christian woman in the home. In any community women too may be a force for good. In great Chicago where there are so many organizations of men yet some of the greatest works for betterment have been brought about by women. Therefore any institution which fails to train women to think intelligently is coming short of its duty. But the intelligent woman without morals is not one who will accomplish the greatest good. The great fruit of education is moral and religious conduct. In our public schools we cannot teach the dogmas of any particular sect but we should not omit moral instruction in any way. It is an undeniable fact that the pupils will unconsciously be influenced by the principles and beliefs of the teacher. The instructor may often even be unconscious of that fact but still it pertains. Take then the utmost care that all who teach have good moral principles for the avowed unbeliever and atheist should have no part in the instruction of the young.

"It is of the greatest importance that the schools teach the pupils to think intelligently; the girls to be able to select good husbands and the young men to think wisely. There is great danger when people become satisfied with that which is second best; strive only and be satisfied only with the choicest.

"Our fundamental aim should be: knowledge, faith, service. Education is the beginning of life. It is not enough that a man may make a living and pay his debts; there is something higher, more noble and Christlike and for that we all should strive."

Then came the presentation of diplomas as follows to all but Miss Wells who was called home by the dangerous illness of her father.

Commencement Address.

Presentation of Diplomas and Conferring of Degrees.
President Harker.

Benediction.
President Harker then read his annual report of which some extracts are given. Commenting on the unusual length of his service, 21 years, he said it had been an increasing joy and added, "Lord if I may, I'll serve another day."

The past year has been quiet compared with the preceding when the \$180,000 campaign was on but it has been a good one. The health has generally been good with the exception of tonsillitis which was of short duration. There has been a small increase of students and the most notable feature is size of the freshmen class of 72 as compared with 47 in 1912 and 36 in 1911. Many more are also planning to return next year. The students' council has been a success. Faculty and students are working together for the general good of the college and all have agreed that no one shall be eligible to election to important offices such as society president or to represent the college in any important manner who is in any way conditioned in her studies or does not maintain a high average standard.

All student organizations have been successful, literary societies have flourished and the newer two hereafter will have halls of their own. The outlook for the coming year is the best in the history of the college while the number of students from Jacksonville is a source of pleasure.

The faculty now numbers 36 of whom 15 are in the liberal arts department, 11 in the music and nine in art, expression and economics. All are well equipped and loyal and while we should like to pay larger salaries the means of the college will not admit it and they are to be commended for their unselfish devotion to the work.

In such a faculty as ours, composed largely of women, we must expect more or less changes every year. Several reasons for change operate constantly, such as the following:

1. Some leave for additional study.
 2. Some because of changed home conditions which make it necessary for them to remain at home.
 3. Some leave to be married.
 4. Some leave because the continued strain of teaching makes rest and change necessary.
 5. Some leave to accept better salaries or more attractive offers in other schools.
- We regret to lose them but will do our best to fill their places with the best material available.
- The increasing interest of the alumnae is shown in many pleasing ways in liberal gifts, advertising the college and other ways.

Financial Record.
The financial report of the year is cause for congratulation and grateful thanksgiving. For the first time in fifteen years the college does not have a dollar of indebtedness. Beginning in 1899, substantial additions have been made to the college grounds and buildings. These additions have cost from \$15,000 to \$75,000 each, and for each addition we had to borrow on the credit of a few faithful friends. In this way for the last fifteen years we have been in debt, and have had interest charges to meet, varying from \$500 to \$4,000 a year. Last year's campaign for \$180,000 was successfully completed on June 4, 1913. By the terms of the subscription, one-third was payable last June, one-third in June 1914, and one-third in June 1915. But many of the friends have generously paid their entire subscriptions, so that already, before the second payment is due, a total of \$110,000 has been received. As rapidly as the gifts have come in, the indebtedness has been paid off, and the last dollar was paid last October. The payments now being made are invested as rapidly as possible in good securities, so as to be income producing.

The total college assets are now more than \$500,000 and to this should be added over \$75,000 in good pledges not yet due, making a grand total of assets of \$575,000, with no college liability.

It is interesting to compare the assets at a few dates five years apart, so as to show the rapid advance of the college in financial way:

In 1893, \$70,000.
In 1899, \$100,000.
In 1904, \$180,000.
In 1909, \$300,000.
In 1914, \$502,000.

The collection of the unpaid subscriptions will bring the total assets of the college up to \$574,000, a gain of half a million in 21 years. The annuity plan of giving is becoming more and more popular and it is excellent.

The death of Mr. Julius E. Strawn is a cause of sorrow. It is to be regretted that he left no will for it was expected that he would remember the college and it is to be hoped that yet in some way his memory may be permanently associated with the college.

Rev. E. B. Houck has been appointed endowment secretary with a view to securing another \$100,000 endowment which we must have by January 1st, 1916. Mr. W. A. Rankin has offered \$10,000 toward this amount and another friend, \$5,000.

Things in Our Favor.
So many things are in our favor. We have a college that is worth all our endeavor. We have increasing hosts of friends, a loyal body of trustees, faculty and students. We have thousands of alumnae and former students who are just beginning to realize how much they love the old college. And we have the enthusiasm of a recent glorious victory. Surely, we ought to do it, and whatever we ought to do, we can do.

It is not wise perhaps to extend a general public campaign over too long a period. I suggest that we continue to push our campaign quietly in such ways as we can most effectively until January, 1915; and beginning at that time we make the campaign an open one, and definitely set ourselves in every way to secure the co-operation of trustees, faculty and students, alumnae and all friends to the successful completion of the problem outlined above by January and June of 1916. We should not forget that the year 1916 will be a political campaign year, and that every consideration urges the completion of our plans.

SPECIAL TWO-DAY FISHING TRIPS TO THE COOL NORTH WOODS.

The season for bass fishing has
just opened. Go early and get the
benefit of the year's best sport.

The Fisherman's Special will leave
the passenger terminal 6:00 p. m.,
Fridays, June 5th and 12th, arriving
in the heart of the Great North
Woods early the next morning. Re-
turning arrive Chicago following
Monday morning.

For reservations and particulars
apply to A. C. Johnson, P. T. M. Chi-
cago & Northwestern Ry. Co., Chi-
cago, Illinois.

SOME OFF-SIDE CHUTES.

The Tigers' baseball lot at De-
troit is a freak architectural cor-
ruption around the bleachers, the
seats in these sun parlors being
screened with heavy wire netting.
The bars presumably were con-
structed with the idea of keeping
the overflow from poaching upon
the fielders' preserves. With the
building of these fences the local
club adopted a ground rule which
allows a batter a home run when he
is fortunate enough to slam the pill
against the daylight wall. Sam
Crawford was the lucky guy to turn
this trick Monday against the White
Sox. The blow was good for two
sacks only, but under the ground
rules Wahoo was given a home run,
knocking the count and of course
depriving the White Sox of the
game, 1 to 0, in the eleventh inning.

Callahan has entered a protest, not
against the ruling of the umpire,
who was Bill Deneen, but against
the ground rule. Ban Johnson has
been appealed to, but a change in
the result of the game is not likely.

Red Faber started his major
league career auspiciously in Detroit
Monday. The rookie from Des Moines
should have been returned a winner
inside of the regulation nine innings,
but the brand of advanced baseball
served him the rather light White Sox
kept him glued to the ground for
thirteen sessions, then to escape at
the short end of a 2 to 1 battle, Chi-
cago had three chances to win in
eight innings, but a shower of ivory
and too much "science" left them
stranded on the paths.

Bob Long, a former California
State leaguer, now a semi-pro, in
Cincinnati, on Sunday shattered all
strike-out records. He fanned every
batter who faced him—twenty-seven
in nine innings. Bill Strickland, also
an old Pacific coast leaguer, was
Tang's battery partner. Bob and
Bill are now competent to open ne-
gotiations with George Stovall or Joe
Tinker, both of whom have millions
to squander for their class of ex-
ponents of the national pastime.

WORLD'S LATEST FINANCIAL AND MARKET NEWS

QUOTATIONS FALL AWAY ON INCREASED OFFERINGS

Pressure Relaxes During Afternoon Session But List Shows No Recuperative Powers.

New York, June 2.—A definite downward movement of stocks occurred today with a larger volume of trading than during the recent deadlocked sessions in which the price level was virtually unchanged. The market opened at fractional recessions. On increased offerings, quotations fell away steadily until in many cases the losses ran to a point or more. During the afternoon pressure relaxed but the list exhibited no recuperative power, holding near the low level.

New Haven again figured conspicuously in the dealings. Steady selling of this stock, influenced apparently by recent disclosures forced down the quotation two points to a new low record. Missouri Pacific rose to a point at the outset but the advance brought about increased offerings and it soon fell back again.

YOU CAN'T POINT OUT A THING in the automobile line that isn't to be had here. From lamps to license signs, from tire to tools, there is not a thing lacking here. Our auto supplies are different in two ways than others. They are better for one thing; more moderately priced for the other.

IS GIVEN SURPRISE PARTY. Miss Margaret Jane Harrison was given a surprise party at her home in Alexander Monday by about twenty friends, the occasion being her fourteenth birthday. The surprise was planned by Misses May Edwards and Martha Mason and was carried out most successfully. The hours from 2 to 5 were pleasantly spent in playing games and during the afternoon refreshments were served.

EUROPEAN INFLUENCES BOOST WHEAT PRICES. Chicago, June 2.—Wheat prices turned upward today, influenced largely by European advices of bullish crop conditions and of diminishing stocks on hand. The market here closed steady at an advance of 1/4c to 1/2c net. Other leading staples too, all showed gains—corn 1/4c to 1/2c; oats 1/4c to 1/2c; and provisions 1/4c to 1/2c.

Profit-taking by long the corn market based all offerings. Eastern demand was said to have improved to material extent. Rural stocks were declared to be exhausted except in Iowa and Northern Illinois and it seemed to be taken for granted that serious competition at present from Argentina was out of the question. Oats trading was chiefly of a local character with the market firm in sympathy with other grain. Estimates were current that the acreage this year amounts to 1.1 per cent less than the total a year ago.

Provisions went up on account of western cut meat stocks having been reduced 10,000,000 pounds during the last month.

RED LARGE PIMPLES ALL OVER FACE

Festered and Came to Head. Scratching Made Sores. Caused Disfigurement. Used Cuticura Soap and Ointment. Face Now Clear.

1413 E. Genesee Ave., Saginaw, Mich.

"Cuticura Soap and Ointment cured me of a very bad disease of the face without leaving a scar. Pimples broke out all over my face, red and large. They festered and came to a head. They itched and burned and caused me to scratch them and make sores. They said they were seed warts. At night I was restless from itching. When the barber would shave me my face would bleed terribly. Then scabs would form afterwards, then they would drop off and the so-called seed warts would come back again. They were on my face for about nine months and the trouble caused disfigurement while it lasted.

"One day I read in the paper of the Cuticura Soap and Ointment. I received a free sample of Cuticura Soap and Ointment and it was so much value to me that I bought a cake of Cuticura Soap and a box of Cuticura Ointment at the drug store. In about ten days my face began to heal up. I kept on using Cuticura Soap and Ointment and in a very short time after the scabs dropped off the red spots where they were vanished also. My face is now clear of the warts and not a scar is left." (Signed) LeRoy C. O'Brien, May 12, 1913.

Cuticura Soap 25c, and Cuticura Ointment 50c, are sold everywhere. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

"Cuticura Soap and Ointment cured me of a very bad disease of the face without leaving a scar. Pimples broke out all over my face, red and large. They festered and came to a head. They itched and burned and caused me to scratch them and make sores. They said they were seed warts. At night I was restless from itching. When the barber would shave me my face would bleed terribly. Then scabs would form afterwards, then they would drop off and the so-called seed warts would come back again. They were on my face for about nine months and the trouble caused disfigurement while it lasted.

"One day I read in the paper of the Cuticura Soap and Ointment. I received a free sample of Cuticura Soap and Ointment and it was so much value to me that I bought a cake of Cuticura Soap and a box of Cuticura Ointment at the drug store. In about ten days my face began to heal up. I kept on using Cuticura Soap and Ointment and in a very short time after the scabs dropped off the red spots where they were vanished also. My face is now clear of the warts and not a scar is left." (Signed) LeRoy C. O'Brien, May 12, 1913.

COMMENCEMENT DAY AT THE WOMAN'S COLLEGE

(Continued from Page Seven)

before the political interest becomes too absorbing.

Terms of Agreement.
By the terms of the mutual agreement among the educational interests of the Illinois and Central Illinois Conferences, as represented in the Educational Forward Movement, we have carefully refrained from special solicitation of friends in these two conferences, leaving this field clear to the Illinois Wesleyan university and the other institutions, and giving them the right of way for their special campaigns. We sincerely hope that they may all be as successful in their plans as we were in our first campaign a year ago, and that for all of them, victory may come within the time that they have been obliged to set as their limit. The Educational Forward Movement, under the capable leadership of Dr. Nae, has been a large factor in all these campaigns, not alone in the largely increased education offerings of the churches, but still more in the rapid advance of interest and sympathy everywhere manifest in the cause of the college among both ministers and the laity.

It is important that we all understand the necessity of securing at least \$100,000 by January, 1916. Neither the amount nor the time is of our arrangement. These have been set for us by the church and by the college associations, and we neither postpone the time nor reduce the amount. In fact, the amount set is the absolute minimum, and I think we ought by every consideration of college need, to increase the amount. We have the best of authority for not being content with the minimum. "If any one compel thee to go a mile, go with him twice." If they force us to raise \$100,000, we should raise \$200,000. We need more than the \$100,000 of additional endowment, and we also need as greatly another building, a combined gymnasium and expression hall. Can we not definitely set ourselves to secure by January 1, 1916, the minimum of \$100,000, as demanded, and in addition to that, to secure by commencement 1916 another \$100,000 for new buildings and equipment? The commencement of 1916 will be the seventieth anniversary of the college, and should be marked by the culmination of some adequate and worthy college plans. I first called attention to this three years ago in my report for 1911, when I suggested the following to be accomplished in five years, to celebrate the seventieth anniversary in 1916.

First, to pay off the indebtedness of \$80,000. This has been done.

Second, to add \$200,000 to the endowment. Half of this has been accomplished.

Third, to secure \$100,000 more for additional buildings and equipment.

It seemed to many a large vision, impossible of realization. But we have already gone more than half way to it, and best of all, we are beginning to understand that we can do things apparently impossible, if we set ourselves wisely and courageously to the task.

COUGH TWO YEARS OLD

Yields to Vinol. Read Why.

Strong vigorous men and women hardly ever catch cold; it's only when the system is run down and vitality low that colds and coughs get a foothold.

Now isn't it reasonable that the right way to cure a cough is to build up your run down condition again?

Mrs. D. A. McGee of Waycross, Ga., says: "I had a chronic cold and cough which kept me awake nights for two years and I felt tired all the time. Vinol cured my cough and I feel stronger in every way."

The reason Vinol is so efficacious in such cases is because it contains in a delicious concentrated form all the medicinal curative elements of cod liver oil, with tonic, blood building iron added.

Chronic coughs and colds yield to Vinol because it builds up the weakened, run-down system.

You can get your money back any time if Vinol does not do all we say. Lee P. Alcott, Druggist, Jacksonville, Illinois.

EXPERT TELLS HOW TO FIGHT ARMY WORM

Member of Agricultural Experiment Station Describes Method of Trapping Pest—Use of Drag Advised—Where Growing crops Prevent Use of Roller, Ditching and Fire are Advocated.

The writer recently had occasion to visit in St. Louis county Missouri and to see the effects of the work of the army worm in that vicinity. The farmers there are using every means possible to stop the pest, but are having little success in their work. When this pest has passed over a corn field there is nothing for the farmer to do but plant the field over. The worms eat a field bare of any growth whatever, then pass on to more fertile pastures.

The Missouri agricultural experiment station at Columbia has taken cognizance of the presence of the army worm in St. Louis county and has mailed out a bulletin telling Missourians how to fight the pest.

Within the past few days invasions of the army worm also have been reported from Barry, Vernon, Howard, Montgomery, St. Charles and Bates counties. With continuing dry weather, the experiment station states, the army worm is certain to prove injurious in other parts of the state.

"The army worm is a native insect found in greater or lesser abundance every year," declared Leonard Hase-man of the experiment station staff.

Pest Increases Rapidly.
"When conditions are especially favorable it increases rapidly. It usually breeds in pastures, meadows, bottom waste land or in rye and wheat fields. When dry weather cuts short its food supply, it is obliged to migrate in search of fresh food and will destroy any cultivated crop which comes in its way. The army worm, at this time, is about half grown and will measure from one-half inch to a little over an inch in length. It is marked with light and dark stripes running lengthwise of its body.

"In the control of the army worm, prevention is most effective. If crops are rotated so as not to permit sod to continue in a field too long or so as to break up waste land regularly, the breeding of the pest can be largely prevented. At this time, however, remedies and not preventive measures are necessary.

Methods of Checking Worms.

"The Missouri college of agriculture recommends two methods of checking the army worm. The one consists of the use of a roller, weighted brush or drag run over the infested portions of fields so as to crush or grind up as many of the caterpillars as possible. This method can be used only in a relatively few cases on account of injuring growing crops.

"The second remedy is a ditch used as a trap into which the migrating worms fall, where they can be killed with coal oil or by burning straw or similar material in the ditch. The ditch should be eight to ten inches deep and can be made by first plowing a deep furrow and then using a shovel to square up the side next to the crop to be protected. The army worm is a clumsy caterpillar and has trouble in climbing up a straight wall. Hogs and poultry help to reduce the army worm.

"Spraying with Paris green or other poison is effective where it can be used. The pest usually migrates for from ten days to two weeks. It feeds rapidly, so remedies should be applied at once."

Reports from Jerseyville, Ill., state that the worms have made their appearance suddenly in Jersey, Greene, and Macoupin counties in central Illinois. In some places the worms are advancing in tremendous columns, eating everything green before them.

State Entomologist W. P. Flint has been in these counties for a week assisting the farmers in their war against the pests.

GENERAL HUERTA IS PREPARING TO RESIGN

(Continued From Page One.)

sued the Mexican delegates had a long conference with the mediators. Afterwards they telegraphed General Huerta to send them at once the names of the men who will be satisfactory to him for places in the new provisional government, to consist of two men chosen by Huerta, two by the constitutionalists and a neutral provisional president selected by common agreement of all parties.

The first four are to compose the cabinet, but are to be morally obligated by the terms of any agreement reached here to share equally the responsibility of a fair administration which will be expected not only to conduct a general election but to make a beginning on land, educational and other internal reforms.

Will Not Consider Huerta.

Washington, June 2.—Upon being informed tonight that the Mexican delegates at Niagara Falls had announced the willingness of General Huerta to resign once Mexico is "politically pacified" the constitutional agency authorized this statement:

"Anything coming from Huerta's side will not be taken into consideration."

As to the note sent tonight by the South American mediators to Rafael Zubaran asking whether the constitutionalists are now ready to discuss internal as well as international questions and to agree to an armistice Senator Zubaran said it would be manifestly improper for him to discuss the matter pending the arrival of the communication.

Earlier in the evening before press dispatches telling of the latest developments at Niagara Falls had been received, members of the constitutionalist agency had reiterated their declaration that no proposal for an armistice would be considered and that no plan for a provisional government to be participated in by Huerta or his followers would be acceptable.

Federal Officials Executed.

Durango, Mexico, June 2.—Fourteen federal officials captured in three decisive engagements between Zacatecas and San Luis Potosi were by the constitutionalists May 30 and 31st have been executed according to reports received today by General Carranza.

Colonel Fernando Reyes with six hundred men of the command of General Carranza Torres who is investing San Luis Potosi defeated a large federal force at Salinas and later defeated a force sent from San Luis to reinforce the Salinas garrison.

The fighting at Salinas lasted twenty eight hours, the federal loss in the battle being forty six privates and four officers.

Colonel Reyes captured two machine guns, twenty three thousand cartridges, two hundred rifles, 123 horses and other munitions.

Colonel Catoca of the command under Panfilo Natera, investing Zacatecas, captured a federal troop train at Pines May 31st, killing sixty of the federals and capturing a considerable supply of ammunition.

Ammunition for Rebels.

Washington, June 2.—Ammunition for the constitutionalists of Mexico left American shores from New York today bound for Tampico despite a new embargo placed on shipments of arms from United States ports. The steamer Antilla was cleared without interference on the part of the United States, greatly to the surprise of Secretary of State Bryan and other department officials. Subsequently it was discovered that the order to prevent clearance of such vessels had been delayed.

What may happen by the time the Antilla, sailing under the Cuban flag, reaches the constitutionalist-controlled port at Tampico was the absorbing topic of interest in official quarters tonight. No embargo from American ports was contemplated until the constitutionalists captured the port of Tampico. Then it became apparent that this government would be required to prevent shipments of ammunition to the revolutionists in order to preserve neutrality as between the Huerta and Carranza factions in Mexico.

This led to a decision to withhold clearance papers to ships with ammunition for any port in the southern republic and the orders were directed through the department of commerce. Whether any attempt will be made by the United States to prevent the landing of the Antilla's cargo at Tampico is problematical.

In some quarters it was maintained the United States could not interfere with landing arms for the constitutionalists because arms for Huerta were permitted to be landed at Puerto Mexico. On the other hand it was agreed, that should a protocol between the Huerta and United States representatives be agreed to at Niagara Falls this government might be bound to prevent shipments of arms to Carranza's forces.

Information received from Mexico City at one of the foreign embassies here outlined a plan said to be contemplated by General Huerta for holding a popular election in Mexico without awaiting the result of mediation or the outcome of the constitutionalist rebellion. The message stated that Huerta proposed to hold provisional elections July 8th.

Officials appeared to be much gratified by the conduct of the owners of the Japanese steamship Selyomauru who declined to accept a cargo of arms for Salina Cruz.

OLD SACK WITH HUNDREDS OF STOLEN LETTERS FOUND

Mail Pouch Taken From the B. and O. Depot at Beardstown Discovered Under an Abandoned House—Checks for Big Amounts Spurned.

Beardstown, June 2.—An old gunny sack, full to the brim, with several hundred letters, post cards and other first class mail, was recovered Monday morning by Postmaster Nicholson, from underneath the floor of an old abandoned shack located along the edge of the timber at the end of the Virginia hard road. Carefully tied and secreted beneath the floor the sack had been resting in its hiding place probably since the mail pouch at the B. & O. depot was ripped open with a knife and a goodly part of its contents transferred from the pouch to the gunny sack and carried away.

At first the postal department officials did not believe that any of the mail had been taken from the pouch after it was torn open, but the discovery of the bundle of mail, Monday morning, all of which bears the date of April 9, 10th or 11th, is positive indication that it was taken from the ripped pouch.

The mail pouch which was ripped open at the B. & O. depot was brought in over that road on the night of April 10th. The train does not reach Beardstown until about 10:20 p. m. and after leaving Springfield, the mail clerk deposited in that sack all mail which was destined for the towns along the road which are not open after night. The next morning he then carries the pouch back east, sorts the mail and delivers it to the proper cities.

The police department and the inspector of the post office department are making every effort to trace down the case and locate the thief. They have clues which may result in arrests at an early date.

The salesman at FRANK BYRNE'S Hat Store will be pleased to show you a most attractive assortment of NEGLIGEE SHIRTS. The colors are guaranteed to stand the laundry.

FUNERALS

Morris.
Funeral services for Gertrude Morris were held Tuesday afternoon at 3 o'clock at the McCabe chapel on Cox street in charge of Rev. J. H. Noland. The music was furnished by a choir and Thomas Wagner sang a solo. The flowers were cared for by Mrs. Lulu Sutton, Miss Cassie Wallace, Miss Lillian Frye and Miss Ethel Jones.

Interment was made in Jacksonville cemetery and the bearers were Charles Hall, Fred Wagner, Clarence Nasoy, Rafael Guthrie, Elmer Jones and Nathan Flisk.

Pilger.
One of the largest funerals ever held in Jacksonville was that of L. W. Pilger, which was conducted Sunday afternoon from the Lutheran church, Rev. P. C. Croil, the pastor, being in charge. The Knights of Pythias attended the services in a body. The bearers were: George Bend, John Ruppel, C. C. Corkill, Robert Maslin, H. Miller and Henry Halblaub.

Among those who attended the funeral from Jacksonville were: Chief of Police George P. Davis, Chief of Fire Department James Wood, City Engineer E. M. Henderson, also Judge C. A. Martin, L. D. Springer, Sheriff E. P. Widmayer, assessor and Treasurer James R. Sligh of Virginia.

Mrs. S. T. Crawley, who has been sick for some time at the residence of her daughter, Mrs. John Boston of South Church street, and who was reported worse Sunday, is considerably improved.

UNVEIL JEFFERSON STATUE.
New York, June 2.—A portrait statue of Thomas Jefferson, a gift to the city from the late Joseph Pulitzer, was unveiled today in front of the School of Journalism of Columbia University. The unveiling formed a part of the commencement exercises at the school, of which Mr. Pulitzer was the founder. The statue is the work of William Ordway Partridge and represents Jefferson as he appeared at the age of 5 years, when he was President of the United States.

PURCHASE OWN CASKET.
Advices are from Santa Barbara, Calif., that Joseph Kuehne, a former Jacksonville resident, who died there recently and is to be buried here, made unusual preparations for his death. It is said that he purchased his own casket and made other preparations which are usually left for friends.

BRADY BROS., HAVE AGENCY FOR COLE AUTOMOBILES

Well Known Firm Will Sell Cars in Three Counties—Took Agency After Considering Many Other Makes.

Brady Bros. have recently announced their decision to take the agency for the Cole automobile in Morgan, Scott and Cass counties. They have often considered the matter of handling cars in connection with their extensive hardware business and have had a great many cars offered them but did not decide to "get in the game" until recently and then selected the Cole as the car which would meet the requirements of this territory.

The Cole has become famous because of the standardization principles on which it is built. The manufacturers claim for it and Brady Bros. are ready to back up the statement that "nothing but Cole engineering and Cole standardization could possibly give you at such a price the combined best efforts of the world's greatest unit specialists—a product which is 100 per cent merit in both material and workmanship from radiator to rear tank."

The equipment of the Cole includes the wonderful Stewart vacuum gasoline feed system and other improvements which are noteworthy. Altogether Brady Bros. count themselves fortunate in having settled upon the Cole as the car to offer prospective purchasers in this and adjoining territory.

Today, on the bargain table, first floor, are 25 ladies' fine wool suits. Choice colors, all new models, none worth less than \$16.50, and most of them up to \$22.50, reduced now to \$6.75.

F. J. WADDELL & CO.

MATRIMONIAL

Hackett-Elias.

Friends in the city have received word announcing the wedding of Michael Hackett and Miss Carrie Elias, which took place May 16 at St. Barbara's church in Los Angeles, California. The groom is employed as blacksmith in the canyons and the bride is a musician of well known ability. Both are well known in their home city and the groom has a large number of friends in Jacksonville, where he formerly resided. They spent their honeymoon in Southern California.

Brune-Pechoeffel.

Herman C. Brune and Miss Mabel E. Pechoeffel, both of this city, were married at 8 o'clock Tuesday evening at Salem Evangelical Lutheran church, the Rev. J. G. Kuppler, pastor of the church, officiating. The young people were attended by William Brune, a brother of the groom, and Miss Dorothy Heinz. After the ceremony a reception was held at the home of the bride's mother, Mrs. Sophia Pechoeffel, 351 South Clay avenue, and elaborate refreshments were served. A pleasing feature of the reception was the artistic taste with which the home was decorated for the occasion.

The bride's party approached as W. Bertram played the wedding march from Lohengrin. The ceremony was said in the presence of a large number of friends and relatives and at its close the recessional was made by the use of Mendelssohn's wedding march. The bride was dressed in a charming creation of white crepe de chene and the bridesmaid wore a satin brocaded gown of pink. The ushers were Edward Weigand and Wm. Graubner.

The bride has a large number of friends in the city who will extend to her the best of good wishes. She is the daughter of Mrs. Sophia Pechoeffel and has for several years been in the employ of F. J. Waddell & Co. Mr. Brune is employed as a cutter for J. Capps & Sons. He is a young man of integrity and ability.

Mr. and Mrs. Brune will make their home on West Lafayette avenue.

TEACHERS ARE LEAVING.

Most of the teachers of the Woman's college left for their homes yesterday. The Messrs. Swarthout will remain in Jacksonville to teach for several weeks. Miss Ruby Neville and Miss McLaughlin will spend the summer in Europe. Miss Nichols will also study piano during the summer. Miss Knopf will spend part of the summer with home folk at Evanston and later go to Maine. Mrs. Kolp expects to study piano abroad this summer.

FALSE EDUCATION IS SCORED BY DR. POST

GIVES ADDRESS AT SCHOOL FOR BLIND GRADUATION.

Seven Are Graduated From State School Tuesday Afternoon—Musical Program Given—Cogent Address by Congregational Pastor—Presentation of Diplomas By Supt. Woolston.

"Education" or "Some old fashioned observations on education false and true" was the theme of Dr. R. O. Post Tuesday afternoon at the graduation exercises of the Illinois School for the Blind. The program began at 2:30 and was exceedingly well attended. It was opened and closed by musical numbers by pupils of the school and members of the I. S. B. faculty. In the absence of the Hon. Fred J. Kern, head of the state board of administration, the presentation of the diplomas was made by Supt. R. W. Woolston. There are in the graduating class this year five young women and two men. The address by Dr. Post, spirited and logical, was greatly enjoyed as was the excellent musical program. "Education" according to the speaker, is "the process of unfolding the possible manhood." In the acorn lies the possible oak—the oak in this case is the acorn educated."

The musical program included selections by the orchestra and the senior chorus. Misses Morris, Lips, Needel, Varley, Crowley and Reavill gave a double trio number and Miss Crowley rendered one composition on the organ. Mrs. Helen James accompanied Claude Rynders in his piano solo and Miss Alice Mathis was accompanist for the senior chorus.

The Seven Graduates.
The graduating class of the Illinois School for the Blind for 1914 includes:

Miss Johanna C. Crowley, Chicago.
Miss Dora A. Lipe, Carbondale.
Miss Lophie L. Morris, Chicago.
Miss Golda E. Peterson, Carterville.

John F. Jirsa, Chicago.
Harry Phillips, Chicago.
"On this occasion you have reason to rejoice," said Supt. Woolston, in presenting the diplomas, "you have occasion to rejoice that you have so far overcome difficulties which at times have seemed to you well nigh insurmountable. You will find that increased ability means increased responsibility and that as you go forth from the school, well trained and well equipped, the world will expect of you the best you have to offer."

The Test of Education.
"By what test may we try the prevalent methods and find whether they be false or true?" asked Dr. Post in beginning the discussion. "Is it the aim to develop the best methods? Then the concept of education is true. Are the methods employed the best for bringing forth the latent possibilities of the individual child into symmetrically developed and disciplined faculties of the man? Then the methods are right."

There are certain false conceptions of the true meaning and purpose of education, pointed out the speaker. "Some think of the school as the place where a child is sent to have his cranium filled and his character molded to order. This idea violates the first premise, that education is the bringing out and not the filling in. Happily this as a working theory of education is rapidly passing away, although we still find most able advocates of its retention."

"The second erroneous conception of a school is that it is a place for teaching our boys and girls how to get along in the world. Let all studies be such as shall bear on the practical," he says. "I do not want my children to become ornamental but useful and so on ad nauseam. As this insensate voice what it wants and it replies, 'the practical.'"

The "Practical" Run Mad.
"I deprecate this prevailing sentiment for the 'practical,' for it casts its baneful influence upon our youth. It sets before them a standard of success not wholly metriculous; one purely commercial and not a whit moral. The soul of its ambition is to 'get there.' The first and last objective of our schools should be, not to help the child to get something, but to help the child to be something. Says President Dwight in his inaugural address: 'One of the greatest evils in our national life is the immediacy of future is likely to be the oneness of education, the fact that men are to have one line of thought only, moving within the sphere of their own profession or business, and are to have their idea of the mind's life limited to its practical results, and not enlarged to the comprehension of what the mind is, in and for itself.'"

"A third erroneous conception of education," pointed out Dr. Post, "is that put forth by Ex-President Elliot. The president emeritus of Harvard says that education consists of the faculty of accurate observation, the ability of making correct records, the faculty of drawing correct inferences from recorded observations and the power to express one's thoughts clearly, concisely and cogently. At first blush this seems to be a simple and beautiful system. But it is erroneous because abominably superficial, abominably partial. According to it the child has nothing to cultivate save the intellect and instinct. To Dr. Elliot the child is composed of cerebrum and cerebellum; no moral nature, no character, no soul."

True Education.

"Turning from the erroneous and false in our educational theories we
